The Crystal that Foretells the Future

IN India, there is a belief that the future A can be foreseen in the depths of a crystal globe. The Hindu spends hours patiently gazing into the crystal, hoping that coming events of his life will pass before his eyes.

In a more modern civilization, we have learned that the future is not determined by crystal gazing, but by definite planning and resolute effort to obtain the objects we desire.

The Thrift you practice today is the crystal globe in which you may read a functive of success and security,

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmiess Substitute

are a Harmless Substitute
Dr. Edwards' Olive Tablets—the substitute for calonel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quietly correct it. Why care the liver at the expense of the teeth? Calomel sometimes plays havoe with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.
